

January 2010 and the Fisherman's Friends record a new CD in St Kew Church

... they had been keen to do the recording in the village but test recordings in St Peter's Church had the raucous accompaniment of seagulls ... they had to look elsewhere ...

St James' in St Kew fitted the bill; good acoustics, few seagulls and next to the pub!

Producer, Rupert Christie ...
"Rupe was brilliant, very relaxed and fitted in with us all like a glove, he couldn't have been better"
